CAUTION EXTRA

A man by the name of [illegible] has suggested to a young man of the name of S. P. Townsend, and uses his name to put up a Sarsaparilla, which they call Dr Townsend's Sarsaparilla denouncing it GENUINE Original etc. The Townsend is no doctor and never was but was formerly a worker in railroads canals, and the like. Yet he assumes the name of Dr. for the purpose of gaining credit for what he is not. This is to caution the public not to be deceived and purchase none but the GENUINE ORIGINAL AND Dr Jacob Townsend's Sarsapar la having on the Old Doctors likeness, his family coat of arms, and his signature across the coat of arms

Principal Office 102 Nassau N. Y. by

OLD DR. JACOB TOWNSEND,

THE ORIGINAL DISCOVERER OF THE

Genuine Townsend Sarsaparilla.

Old Dr Townsend is now about 70 years of age and has long been known as the AUTHOR and DISCOVERER of the GENUINE ORIGINAL TOWNSEND SARSAPARILLA. The agent he was compelled to introduce to the public by which means he became kept out of market and the sales consumer had to those only who had yet with such known as the Genuine. It had reached the ears of many, and as those persons who had been healed of scrofulous sores, and saved from death by the use of the excellence and wonderful

HEALING POWER

Knowing many years ago that he had by his skill science and experience hit upon an article which would be of inestimable advantage to mankind when the means would be furnished it, being it into universal notice when its invaluable virtues would be known and appreciated. This time has come the means are supplied this

GRAND AND UNEQUALLED PREPARATION

is now tendered to the long tried, well established friendship of the health invigorating, and special. It has this found incurable of degeneration or deterioration.

Unlike young S. P. Townsend's, it improves with age, and never changes but for the better. Such as is prepared on strictly the principles by a scientific man. The highest knowledge of Chemistry and the latest discoveries of the art have all been brought into requisition in the manufacture of the Old Dr's Sarsaparilla. No other sarsaparilla of this or any known medicine contains many medicinal properties, and none prepared as which we now offer. Others do not, because they if prepared produce fermentation and acid, which by injurious to the system. Some of the properties of Sarsaparilla are volatile, that they entirely evaporate and are lost in the preparation if the same not prevented by a scientific process known only to the one experienced in its manufacture. Moreover these volatile properties when they do remain in as much as to make it an undesirable are the very essential medicinal properties of the root which gives it all its value.

Any person can buy, or rather steal, what they get a dark colored liquid which is represented to be the curing matter in the root than for any thing else, they can thereby obtain this liquid, but the ingredients to the soul purpose and then call it SARSAPARILLA EXTRACT or SYRUP. But such is not the article known as the

GENUINE OLD DR JACOB TOWNSEND'S SARSAPARILLA

This is so prepared that all the inert properties of the Sarsa will not have been removed every thing capable of being acted on by the menstruum extracted and rejected, then every particle of the medicinal virtues of the root and herbs are united so that they will be offered incapable of losing any of its virtues and keeping in any climate. Prepared in vacuo it is inside the most perfect stage for the

Cure of innumerable diseases.

Hence the reason why we hear so much that so many so called Sarsaparillas are worthless and children We ask for no word less in the cure of

CONSUMPTION, DYSPEPSIA, LIVER COMPLAINT and in all forms of SCROFULOUS AFFECTIONS CUTANEOUS ERUPTIONS, SALT RHEUM, BLOTCHES and all affections arising from

IMPURITY OF THE BLOOD.

It possesses a marvelous efficacy in all complaints arising from an [illegible] of the stomach from unequal circulation, determination to the head, dizziness of the heart cold feet and hands cold chills and hot flashes over the body. If there is this equal in cold hands cold feet, nervousness, expect evil and gentle perspiration relieving state of the body or at [illegible] dizziness, [illegible]

If a month or two after exercise or walking [illegible] and reckoned [illegible] in all be relieved by

FEMALE COMPLAINTS.

It is the very best in cases of [illegible] and [illegible] falling of the Womb Leucorrhea, Suppressed or Painful Menses, Irregularity of the monthly periods and the like and is an effectual healing and purifying of the [illegible] and Urinary organs.

By removing obstructions and regulating the general system it gives tone and strength to the whole body, and thus cures all forms of

Nervous diseases and debility,

and thus prevents or relieves a great variety of other maladies as Spinal irritation, Neuralgia, St. Vitus dance, Sick stomach, Epileptic fits, &c. Convulsions, &c.

It cleanses the blood excites the appetite, the healthy action tones the stomach and gives good digestion, relieves the bowels of torpor and constipation always in connection it purifies the skin and restores the circulation of the blood producing a glow warmth equally all over the body and thus insensibly prepares it to resist cold, exposure and inclemency, as no other medicine does, and invigorates the entire nervous system. In short it is the

The medicine you pre-eminently need!

Both in any fluid or powder. Dr S. P. Townsend's Sarsaparilla is the only [illegible] to be

COMPARED WITH THE OLD DR'S

because of its CLEANSING PURIFYING and INVIGORATING PROPERTIES.

NEVER SPOILS,

while the other DOES by souring fermenting and blowing the bottles or casks in which it is packed, the sour acid liquid exploding and damaging other goods. Must not therefore be compared by no person as to the system—that just said will a system already weakened with acid that causes Dyspepsia but acidity. Do we not all know at when food settles in our stomachs what mischiefs it produces? flatulence heartburn pain, pain of the part, liver complaint diarrhoea dysentery colic and cramping of the bowels. What is scrofula but an acid humor in the body? What produces all the humors which bring on eruptions of the Skin called Head Salt Rheum Pimples on White Swellings Fevers Sores and Ulcerations internal and external? It is nothing on earth but an acid substance which attacks and destroys all the fluids of the body more or less. What causes Rheumatism but a sour or acid fluid which dissolves itself between the joints and muscles bringing on and inflaming the delicate tissues upon which it acts? So of nervous diseases of impurity of the blood deranged circulations and nearly all the ailments which afflict human nature.

Now is it not horrible to make and sell, and [illegible] as the used S. P. Townsend's SARSAPARILLA. Now WE KNOW, AND

KNOWING, FERMENTING, ACID

POUNDS OF S. P. TOWNSEND'S SARSAPARILLA which by his own [illegible] Dr Townsend's Genuine Original Sarsaparilla and MEDICATION of his Inferior preparation as which he would have the world believe forbid that we should desire to be [illegible] Townsend's Sarsaparilla and Dr Jacob Townsend's Sarsaparilla are identical and similar that they are unlike in every particular using not one single thing in common.

As S. P. Townsend is sadly deficient and never was a physician, no pharmaceutist—knows no more of medicine than any [illegible] common sense enables him, what ingredients to purchase to make that they are receiving a genuine article of medicine containing all the virtues of the article it is representing to be, of which are incapable of rightly [illegible] them the AGENTS of the [illegible] and health but what else should be [illegible] with such a [illegible] compatibly of [illegible] [illegible] [illegible]

The public finances have been well managed by the present treasurer and his clerk. The affairs of the city fully sustain his statements. The accounts have been audited monthly and with great care. No interest is unnecessarily accruing to the city, no unnecessary embarrassment accrues to him in the payment of the present law for the collection of taxes. Some of our largest property owners suffer their taxes to remain unpaid for almost an indefinite period, thus compelling the treasurer to resort to temporary loans, at much cost and trouble — I recommend that the city council take early measures to petition the legislature to restore the tax law of 1842 and '43 that being infinitely preferable to the present.

The permanent debt of the city is $123,000—$10,000 of which falls due in July — As there is a temporary debt of $6000 to provide for, incurred in defraying the extraordinary expenses of the cholera, it will not be politic to raise the whole the present year by taxation I recommend, therefore, that seasonable measures be taken to obtain the renewal of the debt falling due in July.

Provision must be made for the payment of a bridge, now in the course of construction, across the Kenduskeag stream near "Strickland's Mills," and also for the rebuilding of the house of Engine Company No — While there are certain things which must be done, I recommend that we adhere to a strict system of economy, in all the departments Our true policy undoubtedly is, to reduce our public debt as fast as is convenient, thereby reducing our taxes, which are now quite onerous And to this end, I recommend, in the event of the passage of the bill now before Congress, making provision for a custom house to be located in this city, that we sell to government the eastern portion of the market lot and the site for that edifice, and that the old city hall and ground under the same be disposed of in accordance with the tenor of a report made by a joint special committee last fall, of which Alderman Bowman was chairman In carrying out this arrangement, we shall be in the receipt of quite an income from valuable property that now lies entirely dormant And I hope the time is far distant when the city shall engage in any utopian scheme, or mortgage herself for any purpose. For a particular account of the condition of the public finances, I refer you to the report of the officer having charge of this department

Our schools, which have for so long a time been the pride of the city, and are truly regarded as the palladium of both the church and the state, that in the prosperity of which all feel so deep an interest, have, I believe, under the management of our devoted superintending school committee, maintained their wonted usefulness If they are not every thing they should be, I feel confident that no lack of faithfulness is chargeable to the committee For the support of the schools our citizens tax themselves heavily, and they have a right to expect they will be conducted in all respects, as they should be Regarding as I do the inculcation of a sound morality of greater consequence to our youth than everything else, I think it incumbent upon the city council to take seasonable measures to assure themselves on this point. If all be right it will do no harm, if there be anything wrong, then surely it should be done. There are about six thousand scholars in the city, while only about four thousand avail themselves of the privilege of the public schools leaving some two thousand children in our city who are growing up without the benefit of an education. I hope that some way may be devised to gather these children into the schools And I think the time has quite come when a reform school, or house of refuge for vagrant children and juvenile offenders should be instituted, either under the auspices of the city authorities or [illegible] I think that this subject is already being considered by some of our philanthropic citizens

A spacious and elegant building, one that does credit to the city, has been erected the past season on the "Bruce lot," for the select school for girls. Relieved from their crowded quarters in which this school has been huddled for the past several years, it cannot now fail to make rapid strides in academical advancement. Two of our past mayors are no longer numbered with the living One was the first Mayor of the city, the other, my immediate predecessor Both were gentlemen of the old school, and both were patrons of learning. To commemorate their memory, I recommend that the high school for boys be designated and known as the "Gilman School," and the high school for girls as the "Abbot School" The appropriation for the support of the public schools for the past year was $12000. The expenditures have been $11284,33. For a detailed statement of the condition of the public schools, I refer you to the very satisfactory report of the superintending school committee.

The appropriation for streets and highways for the year past, was seven thousand dollars. The amount expended is seven thousand six hundred and ninety-three dollars and ninety-two cents There is more than enough of property in the hands of the Commissioner than is required to balance the account. But when an indefinite amount of work is ordered by the city council, it is not at all strange that in the selecting and construction of the same, the officer should get a trifle over his limits ere he is aware of the fact.

The expenditures in this department have been systematically made, and with a scrupulous sense of economy and professional skill.

We have one hundred miles of road to keep in repair, and we should be cautious in opening new roads, and do so only where it is absolutely necessary. The town of Belfast has adopted a system of jobbing out by contract for a term of years all their roads to be kept in repair, out of the village, and judging from a report recently made by the Committee having the same in charge, the system is working thereby.— But it must be recollected that the five thousand dollars which is yearly raised in money and expended at present annually upon the roads, but has only been [illegible] and recently expended in labor [illegible] gravel [illegible] the town at an average per hour, which [illegible] suspended [illegible] roads at five shillings per diem. Rigid examination of the reports of the Commissioner of Streets you will perceive that not one dollar of this money has been expended in the construction of new roads and bridges which were ordered by the County Commissioners, and which will be of little or no public benefit I hope the county commissioners may never again be allowed to interfere with the affairs of this city. It will be absolutely necessary that our streets in the city proper should be kept clean, and in good order; and I will here remark that the sooner the city commences a system of subterranean drainage, the sooner we shall remove one great cause of an unhealthy atmosphere.

There is an ordinance authorizing the Mayor and Aldermen to assign stands for the sale of wood, hay, etc ,—and in accordance with its provisions, certain portions of the streets are appropriated for those objects.— In my judgment it is the duty of the Mayor and Aldermen to preserve inviolate all the public streets, and not suffer them to be prostituted for this or any other unlawful purpose The object of a public street is solely to facilitate the passage from on point to another A street is a thoroughfare, and never designed to be a market place And it is manifestly wrong for the city authorities by such acts even if they were legal, to ruin the private residence of any one of our citizens or destroy his business A man pays a large rent for a store, and the city assess a heavy tax upon his "stock in trade," and at the same time blocks up his door with country teams and butcher's carts, so that for all purposes of business his store might as well be kept locked. Is this right? No, you will all say at once—it is wrong I advise, therefore, that the city authorities procure suitable lots for the purposes of wood, hay and market stands, and remove them from the public streets as soon as may be.

During the last dozen years, our citizens have done much to beautify and adorn the city, and in the summer season, it presents quite a rural appearance. I hope they will continue this good work until every spot suitable for a shade or ornamental tree is occupied. And it will be good economy for the city to plant trees on all her public grounds. It will enhance the value of the property, more than ten times the amount expended. Unfortunately for us there are no granite quarries in our immediate vicinity suitable for the construction of sidewalks I shall rejoice to see the day when Bangor shall commence to establish public walks with a more substantial material than she now uses

For a minute statement of the operations upon the streets and highways, during the past year, I refer you to the Commissioner's report.

The fire department has maintained its high reputation for efficiency and usefulness. The appropriation for the support of this department was $2500. The expenditures have been $2827,02. The house of Engine Company No. 4 will have to be rebuilt early in the season, which will place the whole department on a permanent basis, and end for a long time, any large expenditures. I am satisfied that, for efficiency and skill, our fire department cannot be surpassed by that of any other city in the Union. And liberal as the city authorities have been, this department is sustained at a less cost than any other within my knowledge, of the same magnitude.

But there are some things relating to the department, with which we have a right to complain. There is not that harmony among the companies there should be. Without harmony, the efficiency cannot be fully developed, nor their usefulness fully appreciated. The only rivalry that should ever exist here, should be to see who would do the greatest execution at fires. And then there should be entire subordination at all times and on all occasions to the city authorities.

For a minute statement of the condition of this department, I refer you to the report of the Chief Engineer.

The appropriation for the pauper department, was $1000. The amount expended is $6400. The amount received back from towns together with the receipts for produce sold from the city farm, is about $2000,— [illegible] department, has been well managed by the present efficient and humane board of overseers of the poor The winter has been less severe, and consequently, there has been less suffering this winter than last. We are being perfectly flooded with foreign paupers And unless Congress takes the matter in hand, the governments of the old world will assess a tax upon the property of this country sufficient for the maintenance of all the paupers on the face of the earth.

I had anticipated that the effects of the cholera, would be to reduce our pauper expenses, But it has served to increase rather than to diminish them

In my judgment, eight tenths of our pauperism is chargeable directly or indirectly, to rum-selling and rum-drinking And may I be permitted to throw in the remark here,— that could our boys and young men, who are just taking their primary lessons in vice and intemperance, only realize that this is their end, if indeed, they escape the drunkard's grave sufficiently long to reach here, it seems to me they would dry up parental tears by resisting temptations to vice and a downward career, and *live out* their destiny like men — And when I see in these times, a young man of sterling integrity, and temperate in all his habits, I am wont to look upon him not only with respect, but indeed, as a superior being.

For a full and detailed statement of the condition of this department, I refer you to the report of the board of overseers. And for a very satisfactory report of the condition and operations of the city farm and almshouse, I refer you to the report of the humane and very efficient officer in charge of that establishment

I am not sure, but that if all the manure from the streets could go on to the farm, and that could be placed in a high state of cultivation, it would be more profitable than the cultivation of hay—as now managed.

In conclusion, allow me to say—that in the administration of the affairs of the city—and in the execution of the laws and ordinances, and in the suppression of crime, it is absolutely necessary that the city authorities should have the hearty co-operation of the Police Court. If that court is not now organized in the best possible manner, I recommend that measures be taken to procure a revision of the law establishing the same And in my judgment, much harm accrues to the city from the tendency, or action of the democratic principles embraced in our city charter, and carried into effect in our municipal elections Both boards of the city council are now, annually, composed wholly or nearly so, of new members. Experience has taught me, that no man, however apt to learn he may be, can be of much benefit to the city, until he has served at least, in one or the other of the two boards composing the city government and in the mean time he may do much harm. The people themselves would decide that the city government should petition the legislature to amend the city charter so that one third of each board shall go out annually; or that our citizens should have an implied understanding that when they get really good men in either board they should keep them there, as long as they will consent to work for nothing, and find themselves! Much annoyance arises too, from the fact that, usually, many members of the council neglect wholly, or nearly so, their public duty, and if present at the sessions, are always tardy, and when placed on committees, never report. No doubt this is wholly the result of inadvertency, and if, by an allusion to it, the evil be remedied, I shall have gained my purpose.

Finally The office of Mayor of a city embracing fifteen thousand inhabitants is no sinecure, nor is it without honor I shall not, gentlemen be a candidate for reelection. But having again received the almost unanimous suffrages of my fellow citizens for the distinguished office of their chief magistrate, I find myself placed under such obligations, that I cannot, if I would, disregard them I will then, the present municipal year, if my life be spared, do all that in me lies, to promote the well being of the inhabitants of this city.

WILLIAM H. MILLS.

Whig and Courier.

John S. Sayward.—Editor.

WEDNESDAY, MARCH 20, 1850.

What are the Prospects.

The excitements and turmoils at Washington, the bids, and compromises, and conflicts, moral, sectional, presidential, and personal, afford no promise of any speedy, useful legislation, for some time to come, if at all, during the session The conflict is a great one between the onward progress of liberty in the vast territories out of which States are to be formed, or the stealthy creeping of slavery over those immense domains, there to treasure up political power, and to make itself felt in the administration of the government

We had supposed that the limits of slavery were morally fixed in the minds of the people of the Free States that they were prepared to stand like an anvil against its extension:—but we begin to fear for the result It appears by the Washington correspondent of the Boston Courier, that calculations have already been made, showing the probability that a sufficient number of the House of Representatives, from the Free States, may be secured for admitting California, and for territorial bills for New Mexico and Deseret, without the Wilmot Proviso Among those mentioned as having caved in upon this subject, are the names of Hilsbard of New Hampshire, and Fuller of Maine, the representative in the Eastern district Should bills be passed, erecting New Mexico and Deseret into territories, without a clause excluding slavery, then the most violent measures would be resorted to on the part of Southern slaveholders, to establish slavery there Texas would vomit itself upon the territory of New Mexico, and ask for admission as a State, with slavery existing, even against what Mr Webster says of the laws of God forbidding the existence of slavery there.

We have been supposing that the plan of the President, of leaving the territories to get along under the existing laws until they should reach that point of growth fitting for their admission as States, would finally be reached and adopted, and thus slavery be effectually and quietly kept out; and those States kept free — But the case now seems perilous If territorial bills are passed, admitting slavery, all is lost The slave power will prove victorious in this as in previous struggles, by the caving in of representatives from the Free States. Whenever there is of the love of freedom; whatever [illegible] of the abhorrence of the extension of slavery, whatever there is of disrelish to the plan of maintaining the balance between slave States and free States, in the Senate, should all be concentrated into a common sentiment, and laid before the people's representatives at Washington. Mr Fuller should be early and generally made to understand from his constituents their opinions and feelings upon the subject Let every lover of freedom in his district address him a letter, and do it at once.

Organization of the City Council,

MARCH 18th, 1850

The members elect of the two Boards of the City Council met in convention in the City Hall, and were called to order by the Mayor.

The resolve, declaring the election of WILLIAM H MILLS, Esq. to the Mayoralty of the city for the current municipal year, was read by the City Clerk, whereupon the Mayor elect signified his acceptance of the office, and the oath was administered to him by Judge Hathaway.

The members of the two boards of the City Council were then respectively sworn into office by the Mayor

Prayer was offered by the Rev. Mr. Maltby, after which the Mayor delivered his address to the convention, and then the two boards separated and retired to their respective rooms.

The Common Council was organized by the choice of Ebenezer Trask, Esq , President, and George Perry, Esq , Clerk

The usual orders adopting the rules and orders of the Board of Aldermen, and joint rules and orders of the City Council, were passed in concurrence.

The following orders were severally passed in concurrence, viz :

Order for the City Clerk to cause 300 copies of the Mayor's Address and the annual reports of the several departments, to be printed in pamphlet form.

Order for a joint special committee to inquire into the expediency of letting out under contract, to be kept in good repair for a term of years, all the streets and highways, which the city is by law bound to keep in repair, and also to inquire into the expediency of paying the City Marshal a fixed salary, and having criminal fees, which would ordinarily accrue to him, paid into the City Treasury.

An order for committee to consider the expediency of revising the joint rules and orders of the City Council

Adjourned to Monday, March 25 inst, at 9 o'clock A. M

Members of the Board of Alderman present —Alderman Emerson, Paine, Hill. Hobbs, Low and Lowder. Absent—Alderman Veazie

Members of the Common Council present— Messrs Dillingham, Pearsons, Hatch Bartlett, Savage, Fairfield, Shaw, Morrison, Ames, Trask, Thompson, Sawtelle, Gorham, Littlefield, Merrill, Chapman, Randal and Webster. Absent—Ricker, Arnold, and Eveleth.

☞ We would call the attention of Traders who are about visiting Boston for a supply of spring goods to the advertisement of Messrs *Whiting & Kehoe*, in another column, as being one of the oldest established clothing houses in the city, and the only one doing an *exclusively* wholesale business, it being second to none in the United States having for many years, contracted with the Government for supplying the entire navy with clothing The larger the business the cheaper it can be done" This is a fixed fact, of which no better illustration can be found than the liberal patronage which they are constantly receiving from all parts of the New England States Send to them for a catalogue

☞ We give up a large portion of our columns to-day, to the annual address of the Mayor to the City Council. The style of his address is peculiar, in a grave state paper, showing that our Mayor is no imitator of other men's words or works He has a way of his own and has very frankly and very boldly laid the public sins bare, and fearlessly exposed what he deems the moral nakedness of the land. We have only space now to refer the reader to the document.

☞ We have received several copies of a neat, spirited, neutral paper published at Gardiner, by R B Caldwell, and edited by S L Plummer, Esq The new city can afford to give a good support to this paper, for in many ways such a paper can do much to improve enliven and help the city Its editor displays good talent, and his publisher understands the mystery of issuing a neat looking sheet.

☞ The delightful volume of Headley's Miscellanies, which was noticed yesterday in our columns, may be found at Mr. Duren's Bookstore in the Gothic Block.

☞ Rev Mr. Sewall, a son of Dr Sewall of Washington, was a few months since, appointed U S Consul at St. Jago de Cuba, but the Spanish Government have refused him an exequatur.

☞ BANGOR LYCEUM.

THE Managers give notice that no more Lectures will be given before the Lyceum for this Season

The necessary absence of one, and the indisposition of other gentlemen who were expected to appear with the lectures of the Season, have induced the Managers to suspend their efforts to procure more lectures

The annual meeting for the choice of Officers will be held at the Aldermen's Room in the City Hall on *Tuesday*, April 9, at 7 o'clock, P M

WM. SANDFORD, Secty

Bangor, March 19 1850 3wd

RELIGIOUS MEETING.

THE Annual Meeting of the Penobscot County Missionary Association, auxiliary to the American Missionary Society, will be held at the Vestry of the first Parish Meeting-house in Bangor, on *Thursday* next, 21st, at 2 o'clock P M

All persons interested in the cause of Missions especially those who sympathize with this Board in account of its having no connection with *Slavery* are invited to attend Per order

Doctor GEORGE GOURLAY,

Homeopathist.

Member of Faculty of Physicians and Surgeons Glasgow Scotland---Graduate of Pennsylvania Med College, Philadelphia,

WOULD inform the citizens of Bangor that he has commenced the Practice of Medicine in this city, and respectfully tenders them his Professional services

Dr G deems it expedient to state that he has had ample means of acquiring a correct theoretical as well as Practical knowledge of Medicine and the Collateral Sciences having been engaged in the extensive practice for the twelve years last past besides having spent a series of years in the study of Medicine and Pathology, in several of the most celebrated Medical institutions in Europe

The Dr trusts, by the faithful discharge of his duties as a Physician, not only to merit but receive a liberal share of public favor and confidence

Office and Residence on Third St, nearly opposite "the Jewett Block"

---Refers to---

Northampton---Hon J S PENNEY, and JOHN S ABBOTT
Philadelphia---Dr S G MORTON, Dr WM RUSH Dr R M BIRD
New York City---Dr J S WARREN

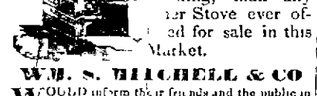
dec 18 JOSEPH SHAW Proprietor

PRIAM OF TROY AIR-TIGHT COOKING STOVE

IMPROVED FOR 1849 & 50,



AND combining more advantages for Cooking, than any other Stove ever offered for sale in this Market.

W. S. MITCHELL & CO

WOULD inform their friends and the public in general, that they have just received another lot of the above justly celebrated Cook Stoves which makes their assortment equal to any in the city.

The Priam of Troy

Has the largest and best oven of any Stove ever invented. It will bake as from four to ten of the largest sized plates, and it is heated quickly and perfectly even by means of deep hollow grooves in the back and bottom of the oven, exposing from three to five hundred square inches more surface to the oven than can be done by a plain surface—The Stove is so arranged that the wood burns upon a self clearing grate, which gives you a clear and bright fire, without being to the trouble of first clearing away the ashes and the fire can be preserved as long as in any other Cook Stove

There is a set of large Rims or Rings connected with the Stove, so that our Farmers and all who wish to use large brass or iron kettles or any kind of old fashioned boiling, can do so—Ten pails can do it at the same time. The whole Stove is regulated by means of only one damper in use in its appearance and in fact is one of the best companions for the kitchen now in use, as thousands who now have them will testify.

A large and well selected assortment of Cooking Cylinder Box, Franklin, Parlor and Air-Tight STOVES Copper, Sheet Iron, Tin Ware, &c, for sale by

White's Hair Restorative:

A PURELY VEGETABLE COMPOUND

For Restoring, Beautifying, Cleansing, Softening, and Dressing The Hair

THIS elegant preparation is at last taking the place of all other ancient and modern, for restoring and dressing the hair. It prevents the Hair from falling off, promotes a new growth, removes dandruff, and restores the natural Color and Lustre of youth to the Hair. It clears the head, and is a sovereign remedy for all humors in the head, and is a preventive of Consumption. Its tendency is to restore, and a healthy vigorous appearance, No Lady's toilet can be complete without this indispensable article

RECOMMENDATION

[Certificate of Dr. Leahy Portsmouth N H]
PORTSMOUTH Sept 20 1849
Mr J P Sloper, Agent for "White's Hair Restorative"
Dear Sir—I deem it my duty to state some facts relating the treatment & value of White's Hair Restorative. Several of my children are afflicted with sore eyes, after a severe fit of the measles, my wife took a fine hair, the scalp suppurated and, the hair grew out harsh, and unnatural. Several applications of various articles failed to do it any benefit, when I procured a bottle of your Restorative, which in a few weeks restored her hair to a second time, and for a long time was unusually luxuriant in the scalp. After various applications I was induced to try the above mentioned Restorative with the effect of one bottle her hair has grown out thick, and luxurious, and of a beautiful color as ever. Furthermore, for a long time I have been afflicted with many pain and other pains in my head and I have found all the best external remedy I have ever tried, I can therefore cheerfully recommend it to all who are afflicted as above, as the best article I ever used
Most respectfully yours &c
A PERRY, M D.

Manufactured by E. WHITE, Low B. Mass
Sold wholesale and retail by LADD & INGRAHAM,—in retail by SARGENT & EMERSON, A. P. GUILD and DUBUGBEE, Bangor

GREAT IMPROVEMENT IN *Planing, Tongueing, and* Grooving Lumber.

JOSEPH P. WOODBURY'S

Patent Planing Machine.

THE subscriber having received Letters Patent for a stationary Cutter, Planing, Tonguein and Grooving Machine, now offer for sale Machines and Rights to use the same. This machine will plane 6,000 feet of boards to any uniform thickness, at one hour producing a better finish of surface than is usually done by hand planes, and does it all her same a snow known, not excepting the Hand planes and is peculiarly adapted to plane and joint stock for fencing, or weather boarding and will do the work faster and better than any machine heretofore invented. The machine is so arranged that it takes off the board with an unbroken shaving the whole width and length of the material, going over it but once more than two thirds the power that is required to do an equal amount of work by the Rotary Cutting Cylinder now in common use. The construction and organization of this machine is different from any other now in use. Communications for further particulars cheerfully responded to by addressing, the subscriber (post paid) Boston Mass

Each of the above Planing Machines may be seen in operation by calling on the Patentee.

The great beauty and superiority of this Sarsaparilla over all other medicines is, that it eradicates the disease & invigorates the body It is one of the very best

SPRING AND SUMMER MEDICINES

ever known It not only purifies the whole system and strengthens the person, but it creates new, pure and rich blood, a power possessed by no other medicine And in this lies the grand secret of its wonderful success—It has performed within the last five years, more than 100,000 cures of severe cases of disease, at least 15,000 were considered incurable It has saved the lives of more than 5 000 children during the two past seasons

10,000 *CASES OF GENERAL DEBILITY AND WANT OF NERVOUS ENERGY*

Dr Townsend's sarsaparilla invigorates the whole system permanently To those who have lost their muscular energy by the effect of medicine or indiscretion committed in youth, or the excessive indulgence of the passions, and brought on a general physical prostration of the nervous system, lassitude, want of ambition, fainting sensations, premature decay and decline hastening toward the fatal disease, Consumption, can be entirely restored by this pleasant remedy. This Sarsaparilla is far superior to any

INVIGORATING CORDIAL,

As it renews and invigorates the system gives activity to the limbs, and strength to the muscular system, in a most extraordinary degree.

CONSUMPTION CURED

Cleanse and Strengthen Consumption can be cured Bronchitis, Consumption, Liver Complaint, Colds, Catarrah, Coughs, Asthma, Spitting of Blood, Soreness in the Chest, Hectic Flush, Night Sweats, Difficult or profuse expectoration, Pain in the Side, &c, have been cured under the use of

SPITTING BLOOD

New York, April 28, 1847

DR. TOWNSEND—I verily believe that your Sarsaparilla has been the means, through Providence, of saving my life I have for several years had a bad cough It became worse and worse. At last I used large quantities of Blood, night sweats, and was greatly debilitated and reduced and did not expect to live—I have only used your Sarsaparilla a short time, and there has a wonderful change been wrought in me I am now able to walk all over the city I raise no blood, and my cough has left me You are welcome to use that I am thankful for these results
Your obedient servant,
WM. RUSSELL, 55 Catherine st.

RHEUMATISM

This is only one of the many hundreds of cases of Rheumatism that Dr Townsend's Sarsaparilla has cured The most severe and chronic cases are weekly confronted by its ever ordinary virtues

James Cumings, Esq., one of the assistants in the Lunatic Asylum, Blackwell's Island, is the gentleman of whom is the following letter

Blackwell's Island, Sept 14, 1847

Dr Townsend—Dear Sir I have suffered terribly for years with the Rheumatism, considerable of the time I could not eat, sleep or walk I had the utmost pain, purse and my limbs were entirely useless I have used four bottles of your Sarsaparilla and have done me more than one thousand dollars worth of good and I am so much better—indeed I feel quite well You are at liberty to use this as a benefit of the afflicted Yours respectfully,
JAMES CUMMINGS

FITS! FITS! FITS!

Dr Townsend not having tested his Sarsaparilla in cases of fits, of course never can immediately, and was surprised to receive the following from an intelligent and respectable farmer in Westchester County

Fordham, August 13, 1847

Dr Townsend—Dear Sir I have a little girl, seven years of age, who has been several years afflicted with Fits. We tried almost every thing for her, but without success; at last, although we could find no encouragement from your circulars for such like cases, we thought, as she was in very delicate health, we would give it a trial some of your Sarsaparilla, and are very glad we did, for it not only restored her health, but she has had no return of the Fits, to our great pleasure and surprise She is fast becoming rugged and hearty, for which we feel grateful Yours respectfully,
JOHN BUFFLE, Jr.

FEMALE MEDICINE

Dr Townsend's Sarsaparilla is a sovereign and speedy cure for Leucorrhœa, Consumption, Barrenness, Prolapsus Uteri or Falling of the Womb, Costiveness, Piles, Leucorrhœa or Whites, obstructed or difficult menstruation Incontinence of Urine or involuntary discharges from the bladder, and for general prostration of the system—no matter what the result of inherent causes or causes, produced by irregularity, Illness, or accident Many thousands of females are using it with invigorating effects on the human frame Personal all weakness and insatitude, from taking it, at once, become active and full of energy under its influence It immediately counteracts the nervousness of the female in one which is the great cause of Barrenness—It will not be expected that, in cases of so delicate a nature, a few bottles will effect a cure—but when a woman sends for the afflicted, that hundreds of cases have been reported to us Thousands of cases where families have been without children, after using a few bottles of this Sarsaparilla no time have been blessed with fine healthy offspring

TO MOTHERS AND MARRIED LADIES

The virtues of Sarsaparilla have been especially prepared in reference to female complaints No female who has reason to suppose she is approaching that critical period, *"The turn of life,"* should neglect to obtain it, as its virtues are such as to prepare the system thus passing from the sphere in which females are subject in that time of life This period *may be delayed for several years by using this medicine.* Nor is it less valuable in the various weaknesses appertaining to females at it is calculated to assist nature by quickening the blood and invigorating the system Indeed this medicine is invaluable for all the delicate diseases to which woman is subject

It braces the whole system, renews permanently the natural action—by removing the impurities of the body, gut so fast strengthening up all the parts, invigorating the whole system to such a degree of health that disease can no more approach it. By using it few bottles of this most cure, in my service and painful surgical operations, I have found

GREAT BLESSING TO MOTHERS AND CHILDREN

It is the safest, and most efficacious medicine for purifying the system, and relieving the sufferings attendant upon child birth ever discovered It strengthens both the mother and child prevents pain and diseases and is a complete preventive of Convulsions, Cramps, Swelling of the Limbs, Despondency, Delirium, Vomiting, Pain in the Back and Loins, False Pains, Hemorrhage, and in regulating the secretions and equalizing the circulation it has no equal The great beauty of this medicine is, it is always safe, and the most delicate can it must necessarily, very few cases require any other medicine—in some a little Castor Oil or Magnesia is useful. Exercise in the open air, and light food with this medicine, will always ensure a safe and easy confinement

BEAUTY AND HEALTH

Cosmetics, Chalk, and a variety of preparations generally in use, when applied to the face, very soon spoil it of its beauty. They close the pores of the skin, and check the circulation, which, when nature is not thwarted by dissipation or powder, or the skin in themselves, will throw out a rich color and cause a new production in the "human face divine," as well as it is the garden of rich and delicately tinted and variegated flowers &c. A free action and healthy circulation of a fluids or the blood of the nerve, rich blood to the extremities, is that which paints the cheek and lip in the most exquisite beauty It is that which imparts the lustre to the eye, the shade and delicacy to the hair all simple, but unpurchasable blessings. This beauty is the offspring of *nature*—not of *powder or soap* If there is not a free and healthy circulation, there is no beauty if the face is fair it has a deathly hue, and the use of cosmetics, and the blood is thick, cold, and impure, she is not beautiful If she be blown or yallow, and there is pure and active blood, it gives a rich bloom to the cheeks, and a brilliancy to their eyes, that is fascinating

This is the reason why the southern, and especially the Spanish ladies, are so much admired. Ladies in the north can have this blush of beauty as well as they in warm rooms, or have spoiled their complexion by the application of deleterious mixtures, if they wish to rouge on plaster of step, buoyant spirits, sparkling eyes, and beautiful complexion, they should use Dr Townsend's Sarsaparilla Thousands who have tried it, are more than satisfied, are delighted Ladies of every station can avail themselves of it daily

SCROFULA CURED

Those that are in state Dr Townsend's Sarsaparilla have given unbounded praise it as a *great remedy for Females &c*, & continuing to purify and cure others with it, and it is now regarded as the best remedy for Scrofula other medicine has ever equalled the great success of Dr Townsend's Sarsaparilla in completing the cure of the most inveterate cases of Scrofula, and the most virulent Ulcers, no matter how long standing or how deep seated. Pale faces, Pimples on the face, Blotches, Boils, Tetter, Salt Rheum, Scald Head, Ringworm, Ulcers, Sore Eyes, Sore Legs, and all diseases arising from impurities of the blood, are literally driven from the system by the use of this Sarsaparilla

This Certificate is conclusively proves that the Sarsaparilla has perfect control over the most obstinate disease of the Blood where there is taken freely in connection with the use of the Sarsaparilla, as unprecedented.

YOUNG CHILDREN.

Dr. Townsend, Dear Sir—I have the pleasure to inform you that three of my children have been cured of the Scrofula by the use of your excellent medicine.—They were afflicted very severely with the disease & have taken only four bottles, it took them away, for which I feel myself under great obligation Yr's respectfully,
ISAAC W URAIN, 10th Wooster st.

OPINIONS OF PHYSICIANS

Dr Townsend is almost daily receiving orders from physicians in different parts of the Union.

These to certify that we, the undersigned Physicians of the City of Albany, have in numerous cases ordered Dr Townsend's Sarsaparilla, and believe it to be one of the most valuable preparations of the day and is the best in the market. D PULLING, M D.

CAUTION.

Owing to the great success and immense sale of Dr Townsend's Sarsaparilla, a number of men who were formerly our Agents, have commenced making Sarsaparilla Extracts, Elixers, Bitters, Extracts of Valley Rock, &c They generally put it up in the same shaped bottles, and some of them have stole and copied our advertisements,—they are worthless imitations, and should be avoided.

Another Life Saved.

Read the following letter from a Clergyman of Camden, Me, to the Editor of the GOSPEL BANNER —

DOWN'S ELIXIR,—A CURE.

BR DREW—being anxious to do good to my fellow beings, as I have means and opportunity, I send to state, through the Banner, that in my sickness last winter and spring I received very great benefit from the use of J H DOWN'S ELIXIR

I had been troubled some weeks with a severe cold which so affected the vocal organs, that it was with great difficulty I discharged the duties of my office My cold continued until I was completely prostrated in bleeding, which created a dry, hard cough. My appetite failed my strength was lost, and my feet and ankles swelled, leaving water in blisters when I pressed my finger on them. My friends despaired of my recovery, and I myself thought the time of my departure was at hand, which time I was extremely weak my skin dry and huskey and my feet and hands cold most of the time I felt as dull, as a man between the shoulders, and a shattering pain in the chest of me a cough My physician was consulted with no benefit, and he said he could do no more for me, I should be relieved I used other kinds of patent medicines, but with no good effect every week I grew more gradually to the last of May, when I came at the advertisement which said
